

Augustinas Lukauskas

Personal info

Pronouns: They/Them

Location: Vilnius, Lithuania

E-mail: augustinaslukauskas01@gmail.com

Profile

I've been actively programming since at least 2016 and I'm ready to take my experience to the workplace.

During my 2-year Computer Science studies I've practiced working on projects in a team.

I love math and programming. In high school I used to participate in Olympiads of these subjects.

I'm passionate about putting math to use in code and optimizing algorithms for speed.

I'm always eager to learn more, be it a new programming language, tool, or some other skill.
