

Augustinas Lukauskas

Personal info

Pronouns: They/Them

Location: Vilnius, Lithuania

E-mail: augustinaslukauskas01@gmail.com

Profile

I have been actively programming since at least 2016 and I'm ready to take my experience to the workplace.

My main hobbies are math and programming. In highschool I used to participate in olympiads of these subjects.

I'm always eager to learn more, be it a new programming language, tool, or some other skill.

I'm enthusiastic about writing fast performing code and optimizing code for speed.

I love various math subjects and putting them to use in code.
